

SAKTHI NARENDRAN

B.Sc. Computer Science | Final-Year Student | Python & Web Development

PROFILE

Final-year B.Sc. Computer Science student with an interest in Python, web development, database applications and application security. Currently developing a professional Personal Portfolio Website using Flask, SQLite, HTML, CSS and JavaScript, with an admin dashboard, contact management, security monitoring, database backup and real-time notifications. Eager to apply academic knowledge to practical software projects and entry-level opportunities.

EDUCATION

B.Sc. Computer Science Final Year

[College Name] [Expected Graduation: 2027]

TECHNICAL SKILLS

Programming: Python, JavaScript

Frontend: HTML5, CSS3, Responsive Web Design

Backend: Python, Flask

Database: SQLite, SQL fundamentals

Tools: Git, GitHub, VS Code

Security: Authentication, login protection, activity monitoring, backup & recovery concepts

FINAL-YEAR PROJECT

Personal Portfolio Website with Secure Admin Dashboard

Technologies: HTML, CSS, JavaScript, Python, Flask, SQLite

A professional personal portfolio platform designed to present profile, skills, courses, projects, certifications, resume and contact information. The backend includes an admin dashboard for contact-message management and system monitoring.

Key Features: Admin authentication, contact-message storage, AI-style message classification, activity logs, security monitoring, CSV export, database backup and restore, PDF reporting support, and real-time notification polling.

PROJECT / ACADEMIC INTERESTS

Smart Vehicle Service Management System — Customer, vehicle, service-history, spare-parts and billing management.

Smart Crime Reporting & Tracking System — Complaint registration, tracking, evidence management and administrative monitoring.

AI-Based Fake Complaint Detection — Concept for identifying suspicious or duplicate complaints using text analysis.

COURSES & LEARNING

Python Programming • Web Development • Flask • SQLite & Database Fundamentals • Git & GitHub • Artificial Intelligence Fundamentals

Note: Course completion status and certificate details should be added only for courses actually completed.

STRENGTHS

Problem solving • Willingness to learn • Project development • Team collaboration • Communication • Interest in new technologies

CAREER OBJECTIVE

To begin a career in software or web development where I can use my computer science knowledge, develop practical applications, learn from experienced professionals and contribute to real-world projects.
